

Case Study

St. Catherine's Catholic School for Girls

Bexleyheath

Matt Allen teaches Music at St. Catherine's Catholic School for Girls in Bexleyheath. He has used Boardworks KS3+KS4 Music every other lesson for the past three years because "it's got loads of great stuff at KS3, and the KS4 stuff is so wonderfully specific and relevant. It's so easy to use!"

"Of course it saves me time, too. I do Edexcel for GCSE, and all the Boardworks stuff is very crystal clear and really excellent. If I'm doing about minimalism and Steve Reich, then that slide goes on the board. So it is in parallel with my planning. There is just the right amount of information on the slides so I don't need to do any editing. It's all there already. "

Matt's favourite thing about Boardworks is the interactive side. He says: "The activities are really excellent – always very good. To create a Flash plug-in like that yourself would take forever. And because the activities are kinaesthetic, the kids love getting involved – they enjoy it so much."
