

Case Study

Evesham High School

Worcestershire

Louise Rosoman is Acting Head of Business Studies at Evesham High School in Worcestershire. She has been using BTEC First Business on her interactive whiteboard since 2008, and uses the resources regularly – sometimes every day.

Louise feels that her Boardworks BTEC resources really help her plan her lessons. “It definitely saves me a lot of time. I tend to use it with topics I’ve never done before, like customer service, which it’s invaluable for. I also find the PowerPoint format very easy to use.”

What Louise really values about Boardworks resources are the interactive activities. As well as using them in her whole-class teaching, she also encourages her students to use them on their own, to remind them of what they’ve done in class. “The summary activities are really good, and the cloze exercises are great too. The students love them – some of them are really fantastic!”
