

# Guide to Foundation and Higher Tier coverage

Each PowerPoint slide within Boardworks GCSE Statistics is marked with an icon indicating which tier the material on the slide is suitable for. These icons appear just below the slide title. When they appear on contents slides, the icons indicate the level of that section of the lesson.

This icon indicates Foundation Tier content.

This icon indicates Higher Tier content.

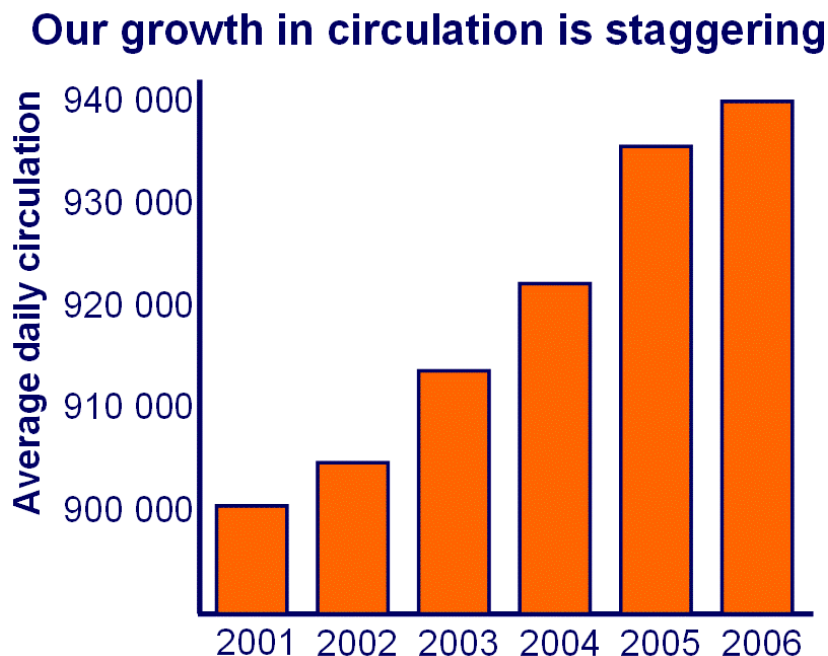

This icon indicates material for both tiers.

Where the AQA and Edexcel specifications differ, the icon refers to the AQA specification, and details of Edexcel coverage are given in the Notes Page.

Example slide with tier icon below the title, "Misleading charts".

## Misleading charts

What is misleading about this chart?
