

Case Study

Jamie Slater

History Teacher

Jamie Slater is a teacher of History in Hampshire. He has used Boardworks History to teach extensively throughout his History lessons. "I'm the main user of the product, I use it in about 95% of my lessons, so I often recommend certain good slides to the other teachers in the department," says Jamie.

One of the main advantages of using Boardworks History resources for Jamie is its interactivity: "The interactive activities get the kids up and involved in the lesson and help present to them the bigger picture. The students are very keen to get involved in the quizzes; there is never a shortage of volunteers!"

The PowerPoint format is perfect for Jamie, as it is time-saving and ready-to-teach. "It definitely saves me time and also gives me inspiration for other lessons," he says. "If I'm caught short for a lesson I know I can use Boardworks and it will have some good ideas with it."
