

Mapping to AQA GCE Geography
 (Based on AQA Specifications for teaching from 2008)

AQA GCE AS Level

<i>Subject content</i>		<i>Boardworks presentations</i>
Unit 1 GEOG1: Physical and Human Geography		
Physical	Rivers, floods and management	Hazards: Hazard Risk and Vulnerability Hazards: Extreme Weather
	Cold environments	
	Coastal environments	Coasts: Coastal Processes and Features Coasts: Coastal Ecosystems at Risk Coasts: Coastal Management
	Hot desert environments	
Human	Population change	Population and Settlement: Population Change Population and Settlement: Urban Inequalities Population and Settlement: Rural Environments and Issues
	Food supply issues	Energy and Resources: Food and Water Supply
	Energy issues	Energy and Resources: Energy Issues
	Health issues	
Unit 2 GEOG2: Geographical Skills		Skills and Statistics: Averages and Dispersion Skills and Statistics: Calculating Difference Skills and Statistics: Looking for Correlation

Mapping to AQA GCE Geography
(Based on AQA Specifications for teaching from 2008)

AQA GCE A2 Level

<i>Subject content</i>		<i>Boardworks presentations</i>
Unit 3 GEOG3: Contemporary Geographical Issues		
Physical	Plate tectonics and associated hazards	Hazards: Hazard Risk and Vulnerability Hazards: Earthquake Hazards
	Weather and climate and associated hazards	Hazards: Hazard Risk and Vulnerability Hazards: Extreme Weather Climate Change: Climate Change Evidence Climate Change: Climate Change Consequences
	Ecosystems: change and challenge	Coasts: Coastal Ecosystems at Risk
Human	World cities	Population and Settlement: Urban Inequalities
	Development and globalization	Development and Globalization: The Development Gap Development and Globalization: What is Globalization?
	Contemporary conflicts and challenges	Population and Settlement: Rural Environments and Issues Development and Globalization: The Development Gap Energy and Resources: Energy Issues
Unit 4A GEOG4A: Geography fieldwork investigation		Skills and Statistics: Averages and Dispersion Skills and Statistics: Calculating Difference Skills and Statistics: Looking for Correlation
Unit 4B GEOG4B: Geographical issue evaluation		All Presentations

Mapping to Edexcel GCE Geography
(Based on Edexcel Specifications for teaching from 2008)

Edexcel GCE AS Level

<i>Subject content</i>		<i>Boardworks presentations</i>
Unit 1: Global Challenges		
World at Risk	Global Hazards	Hazards: Hazard Risk and Vulnerability Hazards: Earthquake Hazards Hazards: Extreme Weather
	Climate Change	Climate Change: Climate Change Evidence Climate Change: Climate Change Consequences
Going Global	Globalization	Development and Globalization: The Development Gap Development and Globalization: What is Globalization?
	Population Migration	Population and Settlement: Population Change Population and Settlement: Urban Inequalities Population and Settlement: Rural Environments and Issues
Unit 2: Geographical Investigations		
Physical	Extreme Weather	Hazards: Extreme Weather
	Crowded Coasts	Coasts: Coastal Processes and Features Coasts: Coastal Ecosystems at Risk Coasts: Coastal Management
Human	Unequal Spaces	Population and Settlement: Urban Inequalities Population and Settlement: Rural Environments and Issues
	Rebranding Places	Population and Settlement: Urban Inequalities Population and Settlement: Rural Environments and Issues

Mapping to Edexcel GCE Geography
(Based on Edexcel Specifications for teaching from 2008)

Edexcel GCE A2 Level

<i>Subject content</i>	<i>Boardworks presentations</i>	
Unit 3: Contested Planet		
Energy Security	Energy and Resources: Hazard Risk and Vulnerability	
Water Conflicts	Energy and Resources: Food and Water Supply	
Biodiversity Under Threat	Coasts: Coastal Ecosystems at Risk	
Superpower Geographies	Development and Globalization: The Development Gap Development and Globalization: What is Globalization?	
Bridging the Development Gap	Development and Globalization: The Development Gap	
The Technological Fix?	Development and Globalization: What is Globalization?	
Unit 4: Geographical Research		
Tectonic Activity and Hazards	Hazards: Hazard Risk and Vulnerability Hazards: Earthquake Hazards	Skills and Statistics: Averages and Dispersion Calculating Difference Looking for Correlation
Cold Environments: Landscapes and Change	Climate Change: Climate Change Evidence	
Life on the Margins: the Food Supply Problem	Population and Settlement: Rural Environments and Issues Energy and Resources: Food and Water Supply	
The World of Cultural Diversity	Development and Globalization: What is Globalization?	
Pollution and Human Health at Risk		
Consuming the Rural Landscape: Leisure and Tourism	Population and Settlement: Rural Environments and Issues	

Mapping to OCR GCE Geography
(Based on OCR Specifications for teaching from 2008)

OCR GCE AS Level

<i>Subject content</i>	<i>Boardworks presentations</i>
Unit F761: Managing Physical Environments	
River environments	Hazards: Extreme Weather
Coastal environments	Coasts: Coastal Processes and Features Coasts: Coastal Ecosystems at Risk Coasts: Coastal Management
Cold environments	Climate Change: Climate Change Evidence Climate Change: Climate Change Consequences
Hot arid/semi-arid environments	
Unit F762: Managing Change in Human Environments	
Managing urban change	Population and Settlement: Urban Inequalities
Managing rural change	Population and Settlement: Rural Environments and Issues
The energy issue	Energy and Resources: Energy Issues
The growth of tourism	

Mapping to OCR GCE Geography
(Based on OCR Specifications for teaching from 2008)

OCR GCE A2 Level

<i>Subject content</i>		<i>Boardworks presentations</i>
Unit F763: Global Issues		
Environmental Issues	Earth hazards	Hazards: Hazard Risk and Vulnerability Hazards: Earthquake Hazards
	Ecosystems and environments under threat	Coasts: Coastal Ecosystems at Risk
	Climatic hazards	Hazards: Hazard Risk and Vulnerability Hazards: Extreme Weather
Economic Issues	Population and resources	Population and Settlement: Population Change Energy and Resources: Energy Issues Energy and Resources: Food and Water Supply
	Globalization	Development and Globalization: What is Globalization?
	Development and inequalities	Development and Globalization: The Development Gap
Unit F764: Geographical Skills		
Geographical investigation skills		Skills and Statistics: Averages and Dispersion Skills and Statistics: Calculating Difference Skills and Statistics: Looking for Correlation
