

## At last, an interactive resource for KS4 Art & Design! A complete solution for interactive whiteboards and projectors from Boardworks

Boardworks continues to expand its market-leading range of interactive whiteboard resources for 2009. Our easy-to-use, comprehensive teaching and learning products now include a brand new product for KS4 Art & Design.

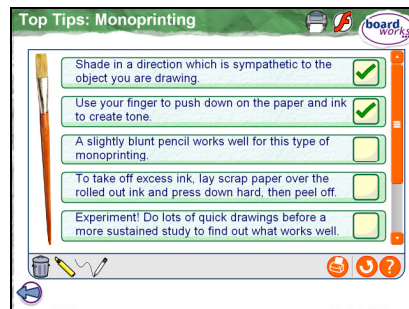

Providing extensive coverage of the new GCSE specifications for 2009, Boardworks KS4 Art & Design is comprised of 18 presentations across 6 units, with Flash animated simulations and activities embedded throughout. Helpful demonstrations, editable 'Top Tips' slides and a stand-alone image gallery ensure that teachers will have everything they need to ignite their students' creativity in one handy location.

Featuring the work of a number of influential artists from different time periods as well as interactive examples of student sketch books, students are given a thorough grounding in all the study skills and artistic techniques required to excel at GCSE. Fun and colourful design activities allow exploration of key concepts, whilst lively animations give step-by-step guidelines on how to achieve a variety of artistic effects. Assignment slides are included throughout KS4 Art & Design and are fully editable so the task can be altered to make it appropriate for every level of ability. A final unit devoted to assessment will guarantee that students know exactly what to expect when it comes to examinations and the assessment criteria.

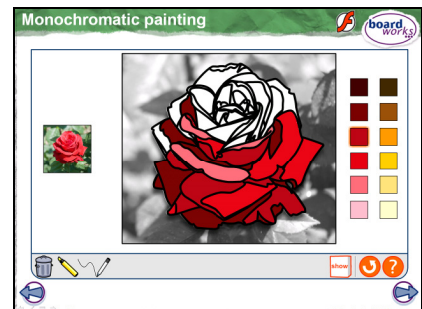

Created in PowerPoint for ease of use, the lessons are also simple to adapt so that teachers can add their own personal touches, insert students' own work and tailor the presentations to the specific needs of their class. The flexible software can be used on interactive whiteboards, projectors or PCs and is even available for use in a VLE (Virtual Learning Environment), making it easy to stimulate student interest and create varied, engaging and inspirational lessons.

*Annotated student sketchbooks emphasise the importance of both written and visual responses to themes*

*'Top Tips' slides include interactive tick boxes and are fully editable to reflect individual teaching styles*

*Hands-on activities accessibly demonstrate techniques before trying them out in the classroom*

### Product details:

Subjects	Published	Cost (ex VAT)
KS4 Art	March 2009	£499

Boardworks create exciting whole-class teaching resources designed specifically for interactive whiteboards and projectors. With complete curriculum coverage from Early Years to A-Level, Boardworks can offer one straightforward solution that will enable all the departments in a school to embed ICT in teaching and learning. Every product is packed with the latest interactive resources that teachers enjoy teaching with and students respond so well to.
