

What's Included?

In June 2008 a new, extensively rewritten version of Boardworks KS3 Geography was published in line with the QCA Programme of Study. Here you can find all the details of this comprehensive upgrade, which costs £249.

Covers the 2008 QCA Programme of Study	The product has been completely updated to reflect the 2008 KS3 curriculum changes, and offers extensive coverage of the current QCA Programme of Study.
New contents document	A brand-new contents document gives a clear overview of the content of each presentation, how many slides and interactive activities are included, and how many worksheets are provided.
New presentations added	11 new presentations have been added across three brand-new units covering issues such as global population; fair trade; climate change; and aid.
Lots of new material	More topics are covered, in far greater detail. Case studies have been brought up-to-date, now covering the Burmese cyclone and Sichuan earthquake, and every presentation is concluded with a section devoted to summary activities.
Packed with more interactivity	All interactive activities have been significantly extended and improved. One in three slides now contains interactive content, and dynamic animations clearly outline key geographical concepts.
Brand-new worksheets	New extension activities and editable worksheets are now included, helping you to adapt the lessons to the needs of your class. All drag-and-drop, click to link and glossary activities are printable, making them ideal for use as homework or class handouts.
Extended teacher's notes	Teacher's notes have been significantly extended to offer additional teaching support.
Improved illustrations	All photographs and artwork in the resource have been improved to make concepts even clearer and provide context to students' learning.
New mapping document	A comprehensive mapping document shows how the material can be used in line with the 2008 QCA Programme of Study.
