

For  
New Zealand

# board works

Boardworks offers inspiring interactive resources for the 21<sup>st</sup>-century classroom, which are used in 85% of schools in the UK, and in over 60 countries worldwide. Suitable for teaching the New Zealand curriculum, as well as the IGCSE specifications for ages 11–18, Boardworks resources are packed with a wealth of exciting activities, animations and quizzes to engage and motivate your class.

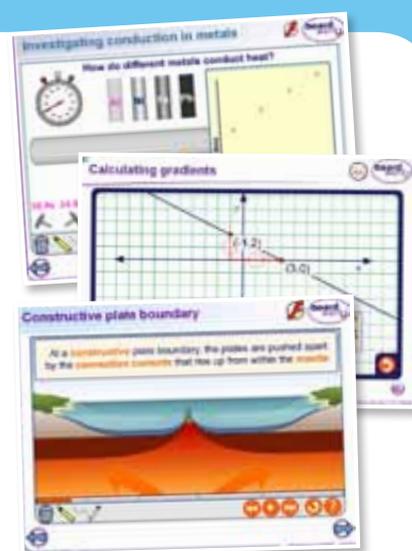

## Extensive curriculum coverage

- Suitable for teaching the New Zealand curriculum across 11 departments for ages 11–18.
- Additional coverage of the IGCSE and A-Level specifications.

## Time-saving and ready to teach

- Our ready-to-teach, whole-class resources are great for interactive whiteboards, projectors, an ICT suite or laptops.
- All Boardworks products are available tagged for use on your virtual learning environment (VLE).
- Intuitive menu systems, detailed contents guides and a wealth of downloadable support documents allow you to navigate the resources with ease and accuracy and select the material that's right for your teaching.

## Subjects covered:

Maths, English, Science, ICT, Spanish, Geography, History, Business Studies, Design and Technology, PE, PSHEE.

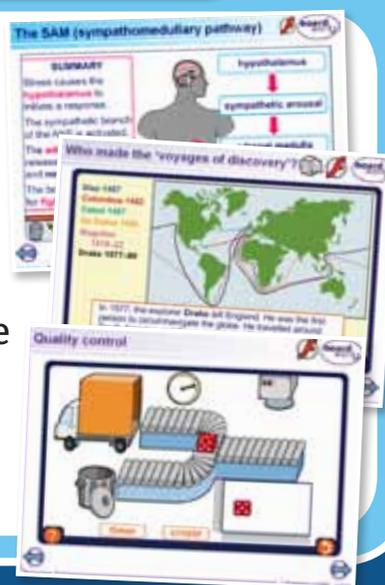

## Inspiringly interactive

- Every Boardworks product is packed with inspiringly interactive material to engage and motivate your class.
- Virtual experiments, embedded audio, video case studies, animations, simulations, quizzes, games and more will help bring your lessons to life, whatever subject you're teaching.

## Flexible resources you can tailor to your class

- Because Boardworks is delivered in PowerPoint you get all its benefits – ease of use, editability, and no need for training – with cutting-edge multimedia and greatly reduced preparation time.
- The PowerPoint format allows you to personalise and integrate your own resources and tailor the software to the needs of your class: add, delete or reorder slides, edit text and insert your own multimedia, and print hundreds of fully editable worksheets to teach the way that you want.

**I'm a big fan of Boardworks.  
The animations are brilliant –  
they always engage the students.  
The interactives are very good.**
