

Case Study

Lever Park School

Bolton

Martyn Deakin is Assistant Headteacher and Head of ICT at Lever Park School in Bolton. He has been using Boardworks KS3+KS4 ICT since 2008, with great success.

The PowerPoint format strongly appeals to Martyn: “I find it really accessible and easy to navigate. The fact that I can edit the presentations is particularly helpful, as it allows me to adapt the tone for different learning abilities and have a more flexible approach to the delivery of ICT.”

Martyn says: “The resources save me a lot of preparation time as they can be used as the basis for every lesson. The activities are great as I try to make my lessons as interactive as possible. The cartoon-like animations and interactive activities go down especially well with the students, as it helps them learn in a visual way.”
