

What's Included?

In Summer 2008 Boardworks KS3 Science was extensively re-written to match the revised Programme of Study for KS3. Here you can find all the details of this comprehensive upgrade, which costs £499.

Covers the revised 2008 Programme of Study	Boardworks KS3 Science has been completely updated to cover the key content, concepts and processes in the revised 2008 Programme of Study.
Lots of new material	Hundreds of new and re-written slides have been added throughout the product in line with the revised Programme of Study. The new material includes printable worksheets, exciting interactive activities and video clips.
New presentations added	New content has been added to cover the new Programme of Study, including presentations covering animal behaviour, human behaviour and 'Science Around Us' presentations covering issues in science and science careers.
Packed with more interactivity	Over 1 in 3 slides now contain interactive activities including virtual experiments, quizzes, games and whole-class voting tasks, and many presentations are now supported by audio and video material.
Brand-new worksheets	Differentiated and editable worksheets are now included, many related to evaluating practicals, helping you to adapt lessons to the needs of your class and offering ideas for extension work.
New video clips	17 new video clips have been added to help students visualise science in action.
Improved illustrations	Photographs and artwork have been updated and improved in order to maintain interest and provide a useful context for examples.
New mapping grids	Detailed mapping grids are included to show how the resources match to the revised Programme of Study.
