

What's Included?

Boardworks KS4 Maths has been extensively rewritten for the 2010 GCSE curriculum changes. Here you can find all the details of this comprehensive upgrade, which costs £499.

Covers the new 2010 GCSE specifications	The product has been fully updated to reflect the changes to the GCSE specifications, offering comprehensive coverage of the Edexcel, AQA and OCR syllabuses.
Functional elements	Functional elements has been embedded throughout to help students base the theory they are learning in context.
Extensively restructured	Presentations are grouped into four units: Statistics and Probability, Number and Algebra, Geometry and Measures, and Problem Solving Skills.
Problem-solving skills	A brand-new Problem Solving unit gives students the chance to practise their ability at selecting and applying the correct mathematical methods and helps you test students' ability to problem solve.
Lots of new material	Brand-new content covers the AO2 and AO3 learning objectives of the new GCSE qualification and numerous supplementary worksheets have been added throughout the product.
More interactivity	The resources are packed with even more interactivity. One in four slides contain interactive activities to engage students of all learning styles.
New mapping grids	Detailed mapping grids are now included to show how the material can be used in line with the major exam boards.
