

Case Study

Bedlingtonshire Community High School

Northumberland

Jane Sowden is Head of Languages at Bedlingtonshire Community High School in Northumberland and uses Boardworks resources throughout her KS3 and KS4 French and German lessons.

Jane is very impressed with the scope of her Boardworks Languages resources, saying: "I love it! There's so much in them!"

Jane finds the flexibility that Boardworks offers very useful. She is able to integrate the resources with her own material, but Boardworks saves her a huge amount of time. "I haven't got time to completely do everything myself from scratch," she says. "Before we bought Boardworks I was doing that. It definitely saves me time." Jane continues: "I very often put a couple of Boardworks slides in with something of my own."

Boardworks has really changed the way students learn at Bedlingtonshire Community School. Jane concludes: "I would say it's crept in and more or less made our course books redundant. I base my lessons around Boardworks."
